Introduction

Throughout the history of the universe, the question which has been posed repeatedly is:
What is the purpose of my existence?
The answer is simple and is given in detail in the Act of Creation.
Every human being has an Atma resident within the body.
Each Atma has a Task which he or she has to carry out during his or her passage through life using the given body.

The DIVINE LAWS

GOD has laid down certain LAWS for all human beings.
These LAWS have been laid down for human beings to live in society and carry out the Task of the Atma.
Some of The DIVINE LAWS are given here.
The rest will be introduced as we progress on our path of learning.
